BY INDUSTRY WE THRIVE.

FOURTEENTH YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, JAN. 8, 1903.

No. 2.

COAL OPERATORS

Will Meet at Louisville Monday Discuss the Big Mineral Display.

TO BE MADE AT ST. LOUIS.

William Brady, for fifteen years a car repairer for the L. & N., was killed at Guthrie Friday night while adjusting a piece of machinery. Another car ran down on him, striking his head and killing him instantly.

Engineer Jack Stokes, who was recently promoted, is now running in the chain gang service.

Elmo Shaver, erstwhile fireman of the hill engine at Elm-pire, is now the South local.

Copier McKeown, made a flying trip to Guthrie to see Operator Brooks, who is on the sick list.

The new Providence-Evansville run was installed Monday with Conductor Will Cozort and Engineer Rierdan in charge and Henry Jones flagman.

Operator Prather, who has been night operator at this place for some time, unfortunately failed to deliver a train order and was dismissed from the service of the company.

The I. C. R. R. is preparing to double track its line from New Orleans, it is said.

Gen. Basil W. Duke, who has been connected with the law department of the L. & N. for a great many years is said to be the most absent minded man in Louisville. He has been known to pass his wife on the street without recognizing her, and just the other day his son, who had been absent from the city for some time, returned and was going home on the street car. His father boarded the same car at the next corner and the young man rose extending his hands. "How are you?" said Gen. Duke, as he cordially shook his son's hand, "how is your father?"

Engineer Lock Rowe is on one of the Providence runs while Engineer Giannini is sick.

Brakeman S. A. Alvey is the 3rd man on the Providence run.

Operator McKinley, who has been working at this place nights, has been transferred to Henderson as night ticket clerk.

Operator Blivens, who has been the night man at Henderson goes to the Postal, at that place.

Chief dispatcher of the I. C. at Louisville wants six good operators.

Ed Tanner is now night caller at this place, vice young Donovan of Guthrie.

In time card No. 73, taking effect Monday, Jan. 5th, at 4 o'clock a. m., is the following clause: "Trains No. 92 and 93 will stop on signal at Guthrie, Hopkinsville, Earlington, Madisonville and Henderson for passengers to and from Nashville, Henderson, Evansville and points beyond this division."

The two Providence trains will run as follows: No. 41 arrives here at 8 a. m., No. 42 at 3:40 p. m., No. 43 leaves at 10:30 a. m., No. 44 leaves at 3:40 p. m., No. 77 arrives at 10:15 a. m., No. 69 at 3:20 p. m., No. 70 leaves Earlington at 8:20 a. m. and No. 78 leaves at 4:25 p. m. We give this information at the benefit of the people going to Madisonville, in order to get the trains mixed.

There is a new station on the H. & W. two miles of Springfield, and Starke's Rest. All freight cars will wait this station.

LOCOMOTIVE BLASTS

MINES.

"Savoyard," in a recent Washington letter, writes this of John Mitchell and the anthracite strike:

"There were 147,000 men mining hard coal in the State of Pennsylvania last May, and along comes a man of the name of Mitchell, and he orders these men to disobey God—'In the sweat of thy face shalt thou eat bread, till thou return unto the ground; for out of it wast thou taken; for dust thou art, and unto dust shalt thou return.'"

Now this man Mitchell ordered 147,000 men to nullify the first clause of that fiat of Almighty God and live on the sweat of somebody else's face, and indulge such pleasantries as murder, arson, spoliation and things like that. They did as he said, and his voice was that of a King. Now such a thing as that may be all right; but I would prefer that the man who gives such orders have a granddaddy. I want him to be on horseback. I would rather he had a crown on his head, a spur on his heel, a sword by his side and an army with banners to support him. It is an outrage that a fellow on foot should cut such capers and shins."

That our coal deposits are the result of bacterial action seems probable from the investigations of a French microscopist, B. Renault, who has devoted 30 years to a study of fossil microbes. He finds these in great quantities in all coal, and he believes that the transformation of plant tissue into the form in which we now find it in these deposits is largely due to their action. It has been generally supposed that peat and the different varieties of coal, hard and soft, are but successive stages in the same process of transformation, but, according to M. Renault, they are due to the action of different kinds of bacteria. The variety that determined the formation of hard coal is extinct, and, hence we need not expect any more to be formed. The decomposition of woody tissue in the marshes of today gives us only peat. This theory appears to accord with the results of laboratory experiments, for all attempts to change peat artificially into coal by means of heat and pressure have hitherto been failures.—*Success.*

A Madisonville correspondent recently sent out a story to a Kentucky daily that told of alleged large operations of the Gordon Land Co., of that place, which was said to be engaged in securing options on coal lands for the benefit of the St. Bernard Mining Co. This story, in condensed form, found its way into the Black Diamond, published at Chicago. The Black Diamond publishes a correction of this story, stating that W. L. Gordon, president of the land company, has written the editor that the report is absolutely false.

The colonel stood amazed, then—"Don't you know who I am, sir?" he asked. "No, I can say that I do," answered the intruder. "I'm Colonel Ford, sir! Colonel Ford, I tell you."

The farmer looked thoughtfully at the perspiring wreck of elegance, and then into the other lot.

"Indeed, sir," he said. "Why didn't you tell that to the last?"

The Power of the Press.

A rich man who made his money in lumber bought a newspaper recently. On Monday the Washington correspondent of this paper received this telegram: "Have the United States Supreme Court meet at 11 o'clock instead of 12, so we can get their decision in our noon-edition." Editor and Publisher.

desire to revisit.

No. 11 mine received a crowd of visitors last week. The crowd was chaperoned by Mr. Charles Heppell, an employee of No. 12. The crowd was very anxious to visit the mine, as it was the first sight to some of them. After making their descent by cage of the shaft, they were shown the most important objects of curiosity, such as the machines, drills, etc. The crowd was composed of Messmes Cloren, Buntin, Griggs and Heppell and Fosses Griggs, Cloren, Curtis and Fooley.

Trip-ride Ermitt D. Wyat was on the sick list a few days last week.

The representative of the Inspector-Sergeant Drill, of New York, was in the city last week. He is giving the mining machine runners a few lessons in the handling of the Sergeant-major.

New Year's day had its expected effect on all the mines to some extent. Those that did not suspend operations were crippled on account of a men, but managed to run.

Chas. Heppell, one of the employees of No. 11 mine, bruised his hand against the face of the coal. It was only a small cut at first, but terminated in a severe one. He has lost a week's work on account of it.

Machinist Hanna, of the Earlington Iron Works, was engaged at the Arnold mine last Sunday. Mr. Hanna is an expert at his trade and is giving satisfaction.

A runaway happened in No. 11 last week. The driver pulled the cars up the grade and the safety that holds the cars on the grade was not put in position, so the cars started back. They ran a distance of 1,000 feet and stopped on a curve against four more cars. One car was torn up as the result of the runaway.

LOUIS J. OSWALD COMES OUT ON TOP.

Not to Blame for Strike Causing Coal Famine in Princeton.

Copies of the Princeton, Ind., papers have been received which free the Princeton Coal & Mining company from blame for the recent coal famine there, resulting from the ten day strike. The Clarion says:

"The miners' organization, through its legally appointed committee, caused work to be suspended on the claim that the company's scales were unfair to the miner. Realizing the demand and necessity for fuel, the coal company, though satisfied that the scales were correct, offered to grant any additional weight allowance within reason until the scales could be officially tested. The overtures of the company were not accepted and work was suspended. Vice President Boyles, of the state miners' organization came to adjust matters and determine the fault. The scales were tested and were found to be correct and Vice President Boyles exonerated the company and charged the fault to the organization."

Died in Colorado.

News has come of the death of Mrs. Luther Norland, nee Francis Atkinson, of La Jara, Colo., on Dec. 31st. Mrs. Norland was cousin to Mrs. J. B. and Geo. C. Atkinson, and had lived in Colorado for many years. The death seems to have been sudden and no particulars were received with the first announcement.

GOMPERS' EIGHT-HOUR BILL.

Evils Seriously Stated by President of National Association of Manufacturers.

WAS "IMPORTED FROM LABOR-CURSED ENGLAND?"

Gompers First Tried to Apply the Bill to Railroad and Steamboat Service.

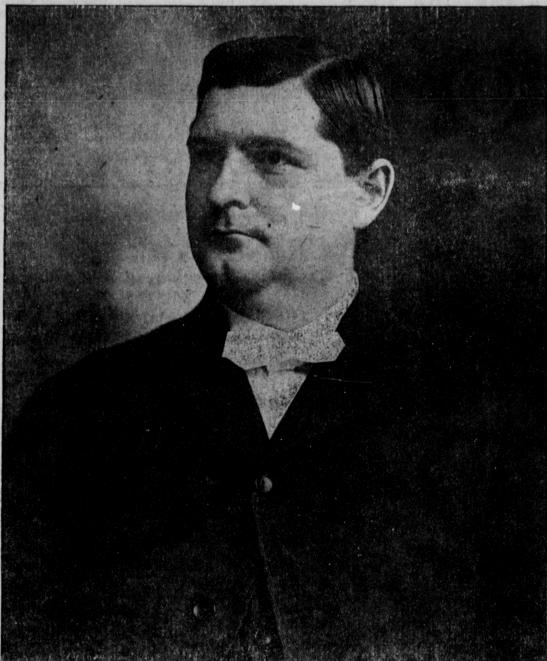

CONGRESSMEN AFRAID OF THE "LABOR VOTE."

Average Labor Agitator is an Ishmaelite, His Hand Against Every Man."

The President of the National Association of Manufacturers, Mr. B. M. Parry, has made public at Indianapolis the following official statement, in which he states the attitude of the association on the subject of the eight-hour bill law, and strongly arraigns labor unions:

"The National Association of Manufacturers endeavored to save face which means the undermining of the commercial stability or the industrial vitality of the United States. It is opposed to the terrible anti-injunction bill now pending in Congress, which proposed law has been imported to this country from labor-cursed England. This law has almost destroyed the English manufacturer, as it is a legalization of the picket and the boycott. The attempt to force such anarchistic legislation upon the employers of this country will be resisted to the last. The National Association of Manufacturers is also unalterably opposed to the so-called eight-hour bill fathered by Samuel Gompers. This bill, if it could be put into effect, would be a radical and destructive assault upon the prosperity of this country. While in the nature of things it would be impossible to put such an absurd law into practical every day operation, yet it would have the effect of dislocating business and industry. The employers of this country will be ruined if this bill is passed. The National Association of Manufacturers is also unalterably opposed to the so-called eight-hour bill fathered by Samuel Gompers. This bill, if it could be put into effect, would be a radical and destructive assault upon the prosperity of this country. While in the nature of things it would be impossible to put such an absurd law into practical every day operation, yet it would have the effect of dislocating business and industry. The employers of this country will be ruined if this bill is passed. The National Association of Manufacturers is also unalterably opposed to the so-called eight-hour bill fathered by Samuel Gompers. This bill, if it could be put into effect, would be a radical and destructive assault upon the prosperity of this country. While in the nature of things it would be impossible to put such an absurd law into practical every day operation, yet it would have the effect of dislocating business and industry. The employers of this country will be ruined if this bill is passed. The National Association of Manufacturers is also unalterably opposed to the so-called eight-hour bill fathered by Samuel Gompers. WAS SWORN LAST THURSDAY.

HON. FLEM GORDON.

Last Thursday morning, at Madisonville, Hon. J. F. Gordon took the oath of office as Circuit Judge of this Judicial district. Judge Gordon is a native of Hopkins county and is a first class gentleman in every respect. Having been admitted to the bar over 18 years ago he has since risen high in his profession and possesses the necessary qualifications to successfully fill his present appointment. For a number of years he was a member of the law firm of Gordon & Gordon, but severed his connection with them two or three years ago and has since been connected with W. J. Cox in the law firm of Cox & Gordon.

PROOF AT LAST.

Letter Just Discovered That Tells Where J. R. Mothershead Lost His Life in Battle.

OFFICER IN FIFTH MISSOURI INFANTRY.

Brother of Dr. N. G. Mothershead Killed by Sharpen in Front of Atlanta.

Since the civil war tore the country asunder and bound the pieces together again in stronger and indissoluble bonds, the exact fate of many a brave soldier has been unknown, and the fate of many will remain unknown till the last day.

Fortunately are those who are able to discover the facts about the end and last resting place of their loved ones lost in battle. The discovery of this kind has just been made with reference to J. R. Mothershead, a brother of our townsmen, Dr. N. G. Mothershead, who was killed during the war. The date and place and manner of his brother's death, however, had never been positively known to the Doctor until an old letter from a comrade was unearthed a few days since by Mr. Thos. D. Osborn, of Louisville, who is a cousin of Dr. Mothershead.

This letter was from P. H. Gill and was written "In line of battle before Atlanta, August 8, 1864." It tells of the skirmish of Mr. Mothershead in a skirmish with the enemy on Aug. 6, '64, when he was struck with shrapnel above the right temple and lived only 15 or 20 minutes. The writer spoke most tenderly of the soldierly and manly qualities of his dead comrade and of his excellent standing as an officer. He told of the burial with military honors in the cemetery nearby. He told, too, how they both had enlisted in the 5th Missouri Infantry on May 5, 1861, when Company B, First Missouri Brigade, was 62 strong as they went into service. After the death of Mr. Mothershead there were only two of the original company left to tell the story. And the writer, Mr. Gill, is known to have been

killed in battle only a short time after he penned the letter that has after so many years brought the truth to the surviving members of the Mothershead family.

Joseph E. Mothershead, son of the Doctor, is a namesake of his uncle with which this history deals.

Mrs. Wiggs of the Cabbage Patch.

Not so very long since a little book made its appearance, having the rather interesting title of "Mrs. Wiggs of the Cabbage Patch." It was indeed a little book, being not at all voluminous, and capable of being read through easily in several hours. But it contained an elegant and highly original style, and its humor and pathos were happily blended. To the genuinely sympathetic, however, its laughs were but pretenses to tears, because of the touching little life story the book so faithfully depicted.

The scene of the story is in Louisville, and the philosophic "Mrs. Wiggs" is a member of one of those families who live in a little cluster of rickety houses in a poor quarter of the city. A young society girl, referred to in the beginning as "the Christmas-lady," who goes down into the "Cabbage Patch" at Yuletide on a mission of charity, is the central figure, barring of course, Mrs. Wiggs. And, by the way, the Christmas lady is one of the two chief characters in a pretty little love story that bolts up just enough to make it interesting and enjoyable.

The book had a great sale, and, best of all, it made a great impression. Its author's depicting with matchless hand the suffering of the honest poor, has had an almost magical effect in Louisville and other cities as well. It has stimulated people to deeds of charity where charity was deserved. It has taught many that Christmas consists not merely in the rich and well-to-do exchanging costly gifts among themselves but in causing at least a little sunshine in handfuls of seeming desolation. It has served three purposes in this country—it has entertained and has enabled its readers, and helped a class that needed helping. Its object was a humanitarian one and it has accomplished it in hundred fold.

The writer spoke most tenderly of the soldierly and manly qualities of his dead comrade and of his excellent standing as an officer. He told of the burial with military honors in the cemetery nearby. He told, too, how they both had enlisted in the 5th Missouri Infantry on May 5, 1861, when Company B, First Missouri Brigade, was 62 strong as they went into service. After the death of Mr. Mothershead there were only two of the original company left to tell the story. And the writer, Mr. Gill, is known to have been

ATTACKED BY UNIONISTS.

Coal Dealer at Henderson Assaulted on Quiet Street by Two Big Men.

R. A. POWELL SELLS ST. BERNARD AND OTHER COALS.

Scoards Left When They Saw Other Men Coming.

Mr. R. A. Powell, a coal dealer of Henderson, Ky., who sells St. Bernard and other Kentucky coals, was a victim of a murderous assault on the streets of Henderson Sunday, for no cause except that he is a dealer in coal mined by non-union labor. Mr. Powell has been in the coal business for some years and last fall took over the business of John C. Atkinson who was for years the sole representative of the St. Bernard Mining Company; Powell adding then to the St. Bernard business to his agency. Mr. Powell is a son of Hon. J. H. Powell, the present mayor of the city of Henderson.

Mr. Powell tells the story of the assault in a letter dated Monday, Jan. 5, as follows:

"I would have written you yesterday but was suffering with my head. I was struck in the head yesterday by a union man, and for no cause. Two larger men than myself wanted to know if I had a union badge. I did not know the men. They said I walked by them as if I thought they were dirty, and they would learn me something. They caught me and I think would have killed me, but saw two men coming up and left. It was on a quiet street and no one around when they caught me. I was unarmed. They have not been caught."

New Century Confectionery. Millions are daily finding a world of pleasure in the new American Salve. It kills pain from Burns, Scalds, Cuts, Bruises; conquers Ulcers and Fever Sores; cures Erups, Sore Throat, Boils and Warts; removes Corns and Warts. Best Pile cure on earth. LOUISVILLE. — KY.

Who Are the Eight Thousand?

(By W. W. Smith, A. M., LL. D.)

The second edition of "Who's Who in America," (from the press of A. N. Marquis & Co., Chicago) contains 1,800 pages of brief biographies, without biography, criticism or comment, of such persons now living in America as have become noted as factors in progress and achievement of the age. "Endeavor has been made," say the editors, "to include all Americans of more than local note in all lines of useful effort." No name is inserted or omitted for financial considerations; the book is sold on its merits.

With a view to determining what effect education of the various grades has had on success in life, effort was made to ascertain the school training of each of these men and women "of more than local note" and 7,852 on their United States list were thus educationally classified.

According to the best estimate we can make from the latest census returns there are in the United States 40,782,007 persons over 21 years old. These are divided educationally about as follows:

Class 1. Without school training..... 4,682,488

Class 2. With only common school training..... 32,862,951

Class 3. With common and high school training..... 2,165,357

Class 4. With college or higher education added..... 1,071,291

Now the question is, how many of the 8,000 distinguished citizens of the United States on the Who's Who list came from each of these classes.

The 4,682,488 of class 1 furnished..... 31

The 32,862,951 of class 2 furnished..... 808

The 2,165,357 of class 3 furnished..... 1,245

The 1,071,291 of class 4 furnished..... 5,788

It thus appears:

1st. That an uneducated child has one chance in 150,000 of attaining distinction as a factor in the progress of the age.

2d. That a common school education will increase his chances nearly four times.

3rd. That a high school training will increase the chance of the common school boy 23 times, giving him 87 times the chance of the uneducated.

4th. That a college education increases the chance of the high school boy nine times, giving him 219 times the chance of the common school boy and more than 800 times the chance of the uneducated.

It is a surprising fact that of 7,852 "notables" thus gathered, 4,810 proved to be full graduates of colleges.

From the nature of the case it cannot be claimed that these figures are exact, but they are based upon the most reliable government statistics and the necessary estimates have been made with care. It is also doubtful that other circumstances contributed to the success of these college trained men, but after all reasonable allowances are made the figures still force the conclusion that the more school training the child has the greater his chances of distinction will be.

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure.

Glycerine—They probably cabbage a lot of it in Connecticut.—Chicago Daily News.

NOTES OF THE MODES.

Woolen Fabrics for Winter Coats and Caps—Attractive Fur Decoration.

Woolen diagonal fabrics for the winter are in great demand. In some cases the diagonal stripes are formed by small colored tufts, in others they are in two distinct colors on a shaggy ground, on which silky canes or strands add much to the effect. In the same way the wool may branch off from the diagonal lines. In barred fabrics the shot effects differ from those worn last spring in so far as the lines are finer and run diagonally in all directions, forming small but felicitous checks. All wool weaving, that will make pretty costumes for general wear all winter, reports the New York Post.

Rough, stylish Scotch weaves, however, are soft and heavy French woolens are the most popular right now, in mode, fawn, or tucker white satin finished with gold braid and buttons, and are likewise entirely without trimming, save for edges of silk stitching.

Many are made of mohair and Persian wool are new for coats and of rough fabric that have no conspicuous design in their weaving. The camel's hair stuffs in pale swallow blue, old rose, orchid, mauve, and chestnut are especially attractive, with their surface covered with long silky hairs in white or feebly gray.

A handsome dinner dress of Russian green brocade is made with a princess back and a girdled front, with a fancy pattern in the middle. The girdle is rather narrow in front, however, instead of a deep corslet on the sides, arching still higher at the back. It is made of extremely fine jet laid over pale red silk. The shoulder seams are slightly raised. The collar is turned back cavalier cuffs of the jet laid over the delicate silk. The gown is lined throughout with pale pink taftette, shot with sea-green. The waist is deeply hung and is in seven-gore shape, slightly rounded at the waist.

Many of the winter coats, capes and redings have the protective stand collar in one with the garment; this is, of course, a seam at the neck. This is often given a certain grace and an appearance of length that are very improving in effect.

Some very attractive examples of fur decoration were seen on the new street fashions brought to light in the early days of the season, brought to view. One by way of illustration, was of a Russian blue cloth, with three graduated bands of otter fur around the skirt, worn with a matching fur jacket that opens in a wide waist of west of white cambric hair figured with silk bows brown and fastened with handsome buttons.

HE KNEW THE STORY.

And Broke In and Told It All But the Most Interesting Part, Which He Didn't Know.

The man who always anticipates when another is telling a story was the victim, and this is the way it happened, writes Elliott Flower, in the Chicago Post.

"Can you ever remember that you forgot something?"

"I'll fall silent to remember what it was you had forgotten; why, of course. Everybody does that."

"Did the recollection of what you had forgotten suddenly dawn upon you?"

"At the most inopportune time? Certainly. That's always the way."

"Well, I had that experience a short time ago."

"I know the story."

"Oh, you do?"

"Unquestionably. But go ahead and tell it, anyway."

"I was going away on a train, having been up to my neck in business that day."

"I quite understand. So many deals on hand that you knew you'd forgotten something."

"I did."

"And you couldn't remember what it couldn't."

"You nudged your brain before boarding the train, but failed utterly."

"What's it?"

"I know that story like a book. We've all been there. After you had boarded the train and were speeding along at a rate of 60 miles an hour you suddenly remembered what you had forgotten."

"Get him!"

"I told you I knew the story. It's one of the ancient hard-luck tales."

"Oh, it is, is it?"

"Sure it is. I can tell it to you now, but it's a secret—just between us. The secret is, when you stood to lose. Of course, you stood to lose a large sum on account of your forgetfulness?"

"I certainly did."

"And you pretty nearly had a nervous breakdown because of it. I've been there. You figured on time tables to see if you could get a train back in time to save yourself, and found you couldn't. You were wild-eyed as you figured out your probable losses and realized how helpless you were."

"Nothing of the sort."

"Nothing of the sort. I simply closed the deal out by wire at the first stop and had a peaceful journey, and say?"

"Well?"

"Would you mind letting me tell my next story myself?"

Very Likely True.

Myer—I wonder where the manufacturers get all the tobacco they are making cheap cigars?

Gyro—They probably cabbage a lot of it in Connecticut.—Chicago Daily News.

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

 We will send you the penny, i.e., a sample free.

Be sure that this picture in the form of a label is on the outside of the bottle of Emulsion you buy.

PREVENTION OF TYPHOID.

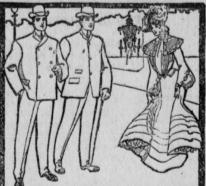

Dr. ASA FERGUSON, a London physician, announced on Christmas day that lemon juice will destroy the typhoid germs in water, and Chicago scientists have since proven the fact by careful tests. It is now authoritatively stated that a few drops of lemon juice put in a glass of water will destroy these germs almost immediately. With a little precaution it seems not a hard matter for most people to avoid the danger of typhoid, nearly all of which lies in the water we drink. The use of a little lemon juice is a very pleasant and simple precaution but is not always practiced or desirable. Everybody, however, can boil their drinking water. The better way by far is to boil and filter or, best of all, to distill all water for drinking purposes. But boiling will do. With every other possible precaution against the pollution of drinking water in cities and towns the danger cannot be avoided. Water supplies become polluted in the most inexplicable and surprising ways, and where it had been thought every care was exerted. The danger is always present but these simple preventives should become universally known and adopted. Typhoid and other germs are killed by high temperatures and the easy, every day process of boiling prevents all danger from this source. This much at least should be done in towns and cities, and by this commonplace, free remedy many lives may be saved.

LACK OF PROTECTION DENOUNCED.

Pennsylvania law, if such is the law, under which the counties do not pay Deputy Sheriffs summoned at the request of the companies, has received the vigorous denunciation of the official head of the anthracite coal strike commission. On Tuesday Chas. Schadt, the Sheriff of Lackawanna county was cross-examined before the commission now in session at Philadelphia. A dispatch says:

"A statement from his attorney to the effect that according to Pennsylvania law, the counties do not pay Deputy Sheriffs summoned at the request of the companies, but that a company is obliged to pay for protection when it demands it, surprised Chairman Gray, who, as he straightened himself in his chair, said: 'I am not familiar with such an American law. When the county or the State relinquishes the duty of maintaining and protecting life and property and keeping the peace, then they are open to criticism.'"

This alleged Pennsylvania law, thus authoritative denounced as "un-American," is in exact line with the interpretation, which certain officials and attorneys attempted to put upon Kentucky law in the recent suit of the coal operators of Hopkins county to recover an account representing a small portion of the total cost of to the operators for the deputies who guarded the valuable property and the lives of the employed miners against repeated violence offered by officials and members of the miners' union during 1901 and 1902. The case was decided in both the Hopkins Circuit and the Kentucky Appellate courts in favor of sup-

Fashionable Clothes.

The more particular you are about your clothes the more you will pay. We are sure that the man who knows will not fail to appreciate the suit in the samples of cloth Americans like in America. We don't care who makes them, so long as they are well made, better tailoring, better fit and better fabrics in our judgments than you will ever find in any store.

We have been making clothes for years for the men and women of all classes. See us for samples of cloth Americans like in America.

Murphy Brothers,

The Morocco tribes seem to have come to the conclusion that their leader has been talking through his Fex.

STOLEN WATCHES NOT PAWNED

Formality of Record in Parks Loan Shops So Rigorous as to Keep Thieves Away.

At the last annual meeting of the Kentucky State Bankers' Association, at Paducah, the work of the Kentucky Exhibit Association was given its unanimous endorsement. President S. K. Snedden appointed a committee of seven to unite with a committee of seven bankers connected with the Exhibit Association in calling on the banks and trust companies for contributions. These committees will send out a letter jointly next week, asking for subscriptions.

CALLED HOME.

Mrs. Martha Fall, an Aged Christian Lady, of Morton's Gap, Dead.

Mrs. Martha Fall, an aged and highly beloved Christian lady, died at Morton's Gap, Friday morning at 7 o'clock. Death was due to consumption and the infirmities of age. The deceased was the widow of Rev. Jas. S. Fall, a well-known Christian minister, who died in 1896. He was formerly pastor of the church in Madisonville. The deceased lady was about seventy-four years of age and died childless. She was born near Russellville and has many relatives in that section. Rev. Phillip King, of Henderson, was her nephew. The remains were taken to Madisonville Saturday morning at eleven o'clock, where she was interred in Odd Fellows' cemetery.

How Are Your Kidneys?

Hoobell's Saracena Pill will surely tell. See Free Ad. Sterling Remedy Co., Chicago or N. Y.

THE BEE EARLINGTON, KY.

A GOOD WOMAN'S MISTAKE.
She Had an Erroneous Idea of Drummers. According to the One Here Mentioned.

In some way the little old woman engaged in missionary work had learned that the passenger with the silk cap on was a drummer, and after sitting along for a few minutes she went up to him and said: "Don't be beside him and beg."

"You will pardon me, sir, if I leave these tracts with you and ask you to give them you most serious consideration."

"Oh, certainly, madam," replied the drummer, "but I am in all politeness. "I see that they are tracts on the sins of lying, swearing, gambling and drinking. Were they especially prepared for me?"

"No, but I am told that are a drummers' specialty."

"I see. My dear woman, I will read your tracts with pleasure, but I must tell you that you have made a mistake. I never told an untruth in my life and I never knew any other drummer to do so. I am a drummer by line. Why, I could have made a \$300 sale to-day by telling a white lie. I could have sold to the customer. You should know, madam, that we stick closer to the truth than any other class of men on earth. You have pained me deeply very deeply."

"I didn't mean to," replied the good woman, as she looked a bit conscience-stricken. "You may not lie, but you can wear, don't you?"

"Very much so. I once knew a drummer who swore, but he was not on the road long. His customers complained and he lost his job. I challenge any living man to come forward and say he ever heard me swear a curse word. I can't do it—and you will find all the rest just as true."

"But about drinking. I have always heard that drummers..."

"Not a drop, ma'am—nothing but tea and coffee and soft drinks. I have never seen a drummer who drank, but it was by the doctor's orders to them from consumption. You couldn't have made a greater mistake, and I trust you will be prompt to apologize."

"Please apologize if I am wrong," replied the woman, "but don't you play cards?"

"You probably refer to poker," signed the drummer, according to the Detroit Free Press. "I have heard of the game, and have often seen it mentioned in newspaper stories. A greater mistake than you made. Believe me, ma'am, when I tell you that I don't even know how many cards there are in a poker deck. I heard of two drummers who used to play poker, but one was killed by the cards and the other struck by lightning. Do I look like a gambler?"

"Oh, no."

"I am glad of that, because I am in it. I am a working father, a husband and a son, and a young man. I shall set aside five per cent. of my salary for the heating, pay \$100 a year pent rent and have distributed thousands of tracts myself against vice. Just about half the men I meet for the first time are here for an evening. As I said, I will sell and digest your tracts, and will pass them on to lawyers, doctors bankers and so on and help to spread the good word. I thank you, ma'am for your friendly interest, and now I trust you will excuse me and never hurt a drummer's feelings by lighting a cigarette again."

He left without a word.

STOLEN WATCHES NOT PAWNED

Formality of Record in Parks Loan Shops So Rigorous as to Keep Thieves Away.

Of watches alone there are received here and at the 23 branch of offices from 1,000 to 1,200 a day, about \$30,000 a year, the average loan on a watch being \$100. The official assured me that in this great number of watches scarcely one in a thousand has been stolen, the fact being that people who have come dishonestly by watches or other property do not go to the pawnshop. The reason for this was apparently made plain as we watched the formalities of record, and I realized how difficult it would be for any one to do business here under a concealed name. I have been a member of the Parisian Franchise, in the Century. Every client receiving a loan greater than 15 francs must produce some official document—an insurance policy, citizen's voting card, a permit to carry arms, a newspaper, a birth certificate, signature and thumb print upon his station in life. For loans under 15 francs the client deals with the mont-de-piete himself to a scrupulous that must be ungrateful to folks of shady antecedents. Indeed, certain persons make this a hobby, and just that is the idea, and declare the Paris system an impudent intrusion upon a client's privacy, which would seem a point badly taken if the client is an honest man.

New England Spinners.

In many country villages and isolated sections of New England and the West, there are still to be found who earn a living by spinning and knitting wool and by weaving and knitting rag carpets and rugs. There is quite a revival in demand now for nicely made rag rugs in some localities.—Detroit Free Press.

SUPPLEMENTARY.

1. Highest amount of indebtedness of any stockholder, person, company or firm (including the liability of the company or firm the liability of the individual member); and if such indebtedness exceeds 20 per cent. of capital stock actually paid in, and actual amount of paid-in capital stock, None. If so, state amount of such indebtedness.

2. How large indebtedness stated in item 1 incurred? (See Section 58, Kentucky Statutes).

3. Highest amount of indebtedness of any director or officer, if amount of such indebtedness exceeds 10 per cent. of paid-in capital stock bank, None.

4. How same secured?

5. Does account of indebtedness of any person, company or firm (including the liability of the company or firm the liability of the individual member); and if such indebtedness exceeds 20 per cent. of paid-in capital stock and actual surplus, None. If so, state amount of such indebtedness.

6. Amount of last dividend, \$1,500.

7. Were all expenses, losses, interest and taxes deducted therefrom before declaring dividend, and was not less than ten per cent. of the paid-in capital of the bank carried to the surplus fund before said dividend was declared? (See Section 58, Kentucky Statutes). Yes.

STATE OF KENTUCKY,

County of Hopkins, vs. ss.

Jesse Phillips, Cashier, of Earlington Bank, a bank located and doing business at Main street in the town of Earlington, in said county. The foregoing report is in all respects a true statement of the condition of the said Bank at the close of business on the 31st day of December, 1902, to the best of his knowledge and belief; and further states that the business of said bank has been conducted in a manner lawful, honest, and not elsewhere; and that the above report is made in compliance with an order of notice received from the Director of the State Department on the 31st day of December, 1902, as the day on which such report shall be made.

Director, J. W. Long, O. L. Tindler, Wm. J. Cox.

Subscribed and sworn to before me by Jesse Phillips, the 2nd day of January, 1903.

P. B. Boss,
Notary Public,
Hopkins Co., Ky.

My commission expires March 1st, 1903.

Eugene Field's

Views on Ambition and Dyspepsia.

"Dyspepsia," wrote Eugene Field, "is a sickness which is born of ambition, and sometimes extinguishes the fire of ambition." Though great despite his complaint Field suffered from indigestion all his life. A weak, tired stomach was his daily companion, forcing him to rest. You can only rest it by the use of preparation like Kodol, which relieves it of work by digesting your food. Rest soon restores it to its normal tone. **Strengthening, Satisfying, Invigorating.**

Prepared by E. G. Druggist & Co., Chicago. The \$1. bottle contains 215 grains. Price \$1. For sale by John X. Taylor.

On Broadway, New York, the rents paid are enormous. A flower store rents for \$15,000 a year, and a small cigar store for \$12,000 and a diminutive haberdashery for \$4,000. A bar room in a basement rents for \$18,000; a drug store north of Forty-second street brings \$13,000; a billiard room leases for \$5,000; an utterly indifferent place is supposed to charge \$3,000. The mystery is, how do the proprietors of these places make ends meet. One woman has a good thing at Forty-second street and Broadway. The William Astor estate leases to her the corner property at \$12,500 per annum, and she sublets it for \$22,300.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Philadelphia, Pa.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in his business, and financially able to carry out any contract made by their firm.

West & Tracy, Wholesale Druggists, New York; W. H. Johnson & Marvin, Wholesale Druggist, Toledo, Ohio.

Hall's Catarrh is taken internally, acting directly upon the nervous system.

Testimonials—Medicinal value.

Price 75¢ per bottle. Sold by all Druggists.

Hall's Family Pills are the best.

Senator Morgan, of Alabama, has in mind a plan to encourage emigration of the South to the Philippines. His idea would be to offer them homestead lands in the islands, and special transportation facilities. He has interested the administration tentatively in the plan, and T. T. Fortune, a negro, who has given much attention to the interest of his race, has been commissioned by the president to visit the Philippines and make report of the outlook for negro colonization.

Peters Creek, Ill., May 1: This is to certify that I have used Hill's Specific in my family for over 10 years for bowel complaints of different kinds and have had many practical experiences of test in this case, and I believe it has saved the life of more than one of my children. I am now without it in my house, and I am unable to see the best preparation I ever used. Thomas Holloway. For sale by all druggists in the county.

The Standard Oil Company is capitalized at \$100,000,000 and this year it declares a dividend of \$45,000,000. From 1897 to the present year inclusive its declared dividends have amounted to \$237,000,000. As if these earnings were not enough, the oil trust has again raised the price of oil, and in New York the wholesale price is 13¢ cents a gallon.

Cure Blood, Skin Troubles, Cancer, Blood Poisons, Green Blood Purifier Free.

Green blood is green, thin, watery, ed, hot or full of humor. If you have blood poison, cancer, carbuncles, eat-
ing sores, scrofula, eczema, itching, rashes and lumps, scabby, pimply skin, or any blood or skin disease, take Botanic Balm (B. B.)

soaking and drying directions. Soon all sores heal and pains stop.

B. B. is the best medicine I ever used.

Price 25¢. For sale by all dealers in the country.

The miners closed their case last week before the anthracite coal strike commission, after about 160 witnesses for their side had been examined, covering twenty days testimony. The case for the operators was opened up, but little progress made, as the commission adjourned over for the holidays.

FLINCH.

BLUE G. HARD.

What keeps us up so late at night
And makes us sleep till broad day-
light?

Flinch.

What makes us strive so hard to
beat
And get angry when they say we
cheat?

Flinch.

What makes us all our duty shirk
And keeps us from our daily work?

Flinch.

What causes one to think and stare
And run his fingers through his hair?

Flinch.

What is the word we dread to hear
When the end of our pile is near?

Flinch.

What makes our hearts faster when
Our opponent lowers his pile of ten?

Flinch.

As we scan the board with eager eye
What agony to hear the cry,

Flinch.

What's the most charming numeric
plan

Ever evolved from the brain of man?

Flinch.

FOR FUN.

Come and Have a Heartly Laugh.

Make arrangements to go to the funniest show on earth on Saturday night, Jan. 10. The Home Talent Hypnotic Entertainment, for hilarious fun, takes the cake. Not a dull moment from the rise to the fall of the curtain. The most ridiculous and funny performances ever witnessed. The wondrous power of hypnotism will be demonstrated by hypno-entertainers, who will make you do anything you like. Tickets for \$1. St. Bernard store, THE BEE office, Taylor druggists and St. Bernard drugstore. Doors open at 7:30. The trouble begins at 8 o'clock. Stage subjects free.

In Red Few Weeks With La Griffe
We have received the following letter from Mr. Hey Kemp, of Angelo, Ill.: "I was in bed four weeks with a bad cold, and took various remedies and spent considerable time with physicians, but I received no relief until I tried Foley's Honey and Tar. Two small bottles of this medicine cured me and I now use it exclusively in my family." Take no substitutes.

Sold by John X. Taylor.

Indians in large numbers are going to work along the railroads in northern Nebraska because of the self-supporting order of the Interior Department. Among those who applied for work is the son of the famous Sitting Bull, the most noted chief of the Sioux in American history. Young Sitting Bull handled his shovel with a stoicism and dignity that was impressive.

G. W. Maitland writes Laketon, Ky., May 1: I can sincerely recommend Hill's Specific as it cured several members of my family as well as my neighbor's family of different diseases. I can't say more. It is the best medicine I ever used. Price 25¢. For sale by all dealers in the county.

The miners closed their case last week before the anthracite coal strike commission, after about 160 witnesses for their side had been examined, covering twenty days testimony. The case for the operators was opened up, but little progress made, as the commission adjourned over for the holidays.

A Scientific Discovery.

Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol supplies the natural juice of green vegetables to the walls of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to relax. Kodol strengthens the stomach and digestive organs to transform all food into rich, red blood, as it gives them new, vigorous blood. Druggists, \$1 per bottle, with directions for the cure. Druggists and friends by writing Blood Balm Co., Atlanta, Ga. Describe trouble and special free medical advice also sent in sealed letter, giving name and address, for chronic, deep-seated cases of impure blood and skin disease, and cures after all else fails.

Recent figures show that the total banking power of the United States, including capital, surplus, deposits, etc., of all banks national, state and private, is nearly twelve and one half billion dollars. This is more than that of the United Kingdom and nearly double that of the entire continent of Europe.

The prevention of consumption is entirely a question of commencing the proper treatment in time. Nothing will adapt to ward off fatal lung troubles as Foley's Honey and Tar.

Sold by John X. Taylor.

The cost of the twelfth census is now figured out to be \$15,848,000, and it is further added that this is an average cost of 15 cents per capita in the United States.

JOHN A. TWYMAN DEAD.

One of Hopkinsville's Oldest Citizens—

Was a relative of Jno. W. Twyman,

of This City.

City Engineer John A. Twyman died Saturday night about nine o'clock, having never regained consciousness after the stroke of paralysis he received Friday afternoon.

The deceased was seventy-five years of age, and was a native of Hopkinsville. He was a member of a pioneer family, and inherited sterling virtues from sturdy, Christian ancestry. He was a devoted follower of the Master, and a lifelong member of the Baptist church.

The New Hampshire constitutional convention at Concord has voted in favor of woman suffrage. The pro-suffrage element are supporting the amendment because the woman vote would aid them to repel the attack that is being made on prohibition.

The Vermont legislature had just killed a bill allowing women to vote.

Wilmer Oxford, of Rock Creek, Ill., writes as follows: I have used Hill's Specific in my family for seven years and have found it to be excellent. I have never without it in my home. All families should keep Hill's Specific on hand at all times.

Chamberlain's Cough Remedy, I find, is just what I need to cure my cough. I have had it for two years now and it has been a great remedy.

I am never without it in my home. I began taking your medicines I gained right away. I am now in full strength. I am taking your medicines in August and now feel as strong as ever.

F. C. Pierce's Common Sense Medicine is sent free with receipt of stamp to postage mail.

Send 21-cent postage for the book in paper covers, or 31 stamps for cloth volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Interesting Relics.

Mr. Lee Hawkins, of this city, has just returned from a two weeks sojourn in Tennessee near the battle ground of Fort Donaldson and has brought back with him many interesting mementoes of the "late unpleasantness." He brought to this city a portion of the gun carriage shot, a four pound solid shot, some pieces of different sized shells, a lot of minie balls and some canister balls and a lot of pistol bullets, which he had picked up on the battle field. Some of the bullets were misshapen from having been fired and others retained their original form. They are objects of great interest and are highly prized by their possessor. But, thank God, the mission of these deadly missiles is ended and peace reigned supreme in these re-United States.

GRAPEVINE ITEMS.

Everything around here has gotten down to routine work again since the holidays.

Leslie Laffoon spent several days in Henderson during Xmas.

Roy Jones has returned from a visit to White Plains.

W. A. Nisbet is repairing the house in this neighborhood occupied by Ben Neal.

W. T. Stinnett will soon move to his farm now occupied by Ben Nixon, who will probably move to Earlington.

Marion Rodgers, a former Hopkins county boy, but who for the past 16 years has resided in Texas, came home to spend the holidays. His stay in the West has been prosperous. His home at present is in Jackson county, Texas.

Supreme CURE of CROUP.

A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. I have used it in my family for seven years and have found it to be an excellent remedy. I am never without it in my home. All families should keep Hill's Specific on hand at all times.

A Nervous Woman.

The number of visitors to the Carlyle House at Cheltenham, London, during the twelve months just closed has been equal to any of the preceding like periods since 1895, while the United States, as formerly, furnishes the largest proportion of pilgrims from every part of the globe.

Literary people of Boston are awaiting for the setting up in Boston of a tablet in honor of Edgar Allan Poe. Poe was born there in 1809, his mother being a leading woman at Haymarket. His first book was "A Blasphemous Libel."

The present movement is one of the results of the labors of Prof. Richardson of Dartmouth in reviving interest in the writings and history of Poe.

In his biography of Alexander Dumas Harry A. Snarr says that the improvident French author, who hated avarice, was once waiting in line for his cloak at a soiree, when a dame who had come to give an offer to the author handed out his palette. Dumas, getting his cloak, threw down a \$20 note.

"Pardon, sir, you have made a mistake," said the man, offering the note back. "I am a poor friend."

Dumas, casting a disdainful glance at the millionaire, said, "It is the other gentleman who has made the mistake."

The story is told that Emerson Hough, the author of "The White Hunter," was responsible for the passing of the act which gave government protection to the herd of buffalo in the United States. Mr. Hough, who was much concerned over the fact that the animals, which were being rapidly exterminated, were being rapidly exterminated. The agitation he started accomplished the desired result, and the buffaloes are now safe.

Even since his youth Richard Le Gallienne has worn his hair long. When he was trying to qualify himself as an accountant in a Liverpool office his hair was several inches longer than that of his fellow clerks.

He later became a manager of theater employes, who sent for him one day.

The young lady who calls up The BEE office 'steen times per day to talk to one of the boys, could employ her time more profitably by washing the dishes for her mother.

That a certain young lady in Earlington said Tom Trabern looked so sweet at the wedding.

That Walter McGarry and Claude Montague think they can beat any one in town playing flinch.

The streets are slightly muddy at the present time.

That it is dark as a stack of black cats at Madisonville these nights and the price of lanterns has gone up.

That every man, woman and child in Earlington should read THE BEE if they wish to know the current events of the day.

That it takes more than a penny a week to pay your fare heaven.

That the reason some people do not enjoy the sermon, they are thinking of their dinner.

That Col. Albert Toombs, of hypno-faith fame, will give you a dollar worth of fun for 25 cents Saturday night.

That the best time to advertise is when business is dull.

That we have no calendars to give away.

That some of the boys in Earlington are too slow to catch a decent cold.

That Mike Long and a party of friends are going to Mississippi bear hunting in a few days and have promised to send us a bear?

That Miss Pauline Davis is staying in the post office now, vice Miss Nannie Ashby promoted.

That the young lady with the molasses candy hair was the prettiest girl at the wedding.

That if you know any news it is your duty to tell it to THE BEE.

That Elmer Orr wants a job as lock tender at Rumsey, so he can fish all the time.

Dr. D. U. Dead, of Madisonville, died Monday evening at 4 o'clock. His illness was of short duration. On Sunday morning he was seized with a chill which developed into pneumonia and soon ended his life. He was a popular member of the Elks and was buried by that lodge at Hopkinsville Tuesday. He leaves one daughter, Miss Esther, who is now attending school at Murfreesboro.

Recent figures show that the total banking power of the United States, including capital, surplus, deposits, etc., of all banks national, state and private, is nearly twelve and one half billion dollars. This is more than that of the United Kingdom and nearly double that of the entire continent of Europe.

PERSONAL AND LITERARY.

The number of visitors to the Carlyle House at Cheltenham, London, during the twelve months just closed has been equal to any of the preceding like periods since 1895, while the United States, as formerly, furnishes the largest proportion of pilgrims from every part of the globe.

Literary people of Boston are awaiting for the setting up in Boston of a tablet in honor of Edgar Allan Poe. Poe was born there in 1809, his mother being a leading woman at Haymarket. His first book was "A Blasphemous Libel."

The present movement is one of the results of the labors of Prof. Richardson of Dartmouth in reviving interest in the writings and history of Poe.

In his biography of Alexander Dumas Harry A. Snarr says that the improvident French author, who hated avarice, was once waiting in line for his cloak at a soiree, when a dame who had come to give an offer to the author handed out his palette. Dumas, getting his cloak, threw down a \$20 note.

"Pardon, sir, you have made a mistake," said the man, offering the note back. "I am a poor friend."

Dumas, casting a disdainful glance at the millionaire, said, "It is the other gentleman who has made the mistake."

The story is told that Emerson Hough, the author of "The White Hunter," was responsible for the passing of the act which gave government protection to the herd of buffalo in the United States. Mr. Hough, who was much concerned over the fact that the animals, which were being rapidly exterminated, were being rapidly exterminated. The agitation he started accomplished the desired result, and the buffaloes are now safe.

The story is told that Emerson Hough, the author of "The White Hunter," was responsible for the passing of the act which gave government protection to the herd of buffalo in the United States. Mr. Hough, who was much concerned over the fact that the animals, which were being rapidly exterminated, were being rapidly exterminated. The agitation he started accomplished the desired result, and the buffaloes are now safe.

HAPPENINGS IN KENTUCKY.

The conviction with life sentence of two burglars who committed murder at Lexington has not stopped burglary in that town, where the police were kept busy four nights of last week answering burglar alarms.

It is said that certain Democratic politicians are after Urey Woodson's scalp as National Committee man.

Hopkinsville not long since had a flood of counterfeit dimes. Now the base coin in circulation figures up to the dollar mark and traders must ring or bite every "wheel" that comes, or be taken in by the "queer."

Editor C. C. Moore is going abroad, to Jerusalem and other points. Christians will take a long breath.

Lebanon, Jan. 6.—The Hon. C. Spalding, in a speech at the courthouse today, announced himself a candidate for the Democratic nomination for Representative of this county, and in the event of his election a candidate before the next General Assembly for speaker of the House.

Monticello, Jan. 6.—George White shot and killed his brother-in-law, Jas. Winchester, near Mill Spring yesterday about daylight. Circumstances indicate that White was laboring under temporary insanity. He was lodged in jail here in the afternoon.

Lexington, Jan. 6.—Mrs. McDowell, widow of Major H. O. McDowell, granddaughter of Henry Clay and mother of Mr. T. C. McDowell, the well known turfman, was removed yesterday from her home at "Ashland" to the Good Samaritan Hospital, where she is to be operated on today for appendicitis.

Shelbyville, Jan. 6.—County Judge Edwin H. Davis yesterday handed down his opinion in the case of the Commonwealth vs. T. C. Albritton, state revenue agent, vs. W. J. Thomas, trustee of the estate of the late Pauline Crawford, in which he held that the estate, which amounts to about \$28,000, is subject to assessment and taxation for the years 1883 to 1902, inclusive. The state and county taxes due amount to over \$4,000 and the railroad and school taxes for the years named will considerably augment this amount. The case will probably be appealed to the Shelby Circuit Court and the Court of Appeals.

Owensboro.—News has been received here of the death of Mr. Henry Bray, aged seventy years, at his home at Ellendale. Mr. Bray was one of the best known business men and farmers in Daviess county.

DON'T TOBACCO SPIT AND SMOKE
Your Lifeway
You can be cured of any form of tobacco spit by taking easily, be made well, strong, magnetic, falling new life and vigor by taking **NO-SAG**, a new product of the C. C. C. Company. Over 100,000 pounds of **NO-SAG** have been sold. Write for free sample and advice. Address **STERLING REMEDY CO.**, Chicago or New York. 437

ATTY. GEN. KNOX'S VIEWS.

Identical Letters Addressed to the Chairmen of the House and Senate Judiciary Committees.

THE QUESTION OF TRUSTS REVIEWED.

The One Desired By the People Is That Combinations of Capital Should Be Regulated, Not Destroyed—Tendency Toward Monopolization Should Be Corrected.

Washington, Jan. 7.—Atty. Gen. Knox has addressed identical letters to Senator Haar, chairman of the senate judiciary committee, and Representative John E. Rutherford, chairman of the house judiciary committee, giving his views on the subject of trusts. These letters are in reply to communications sent him by Senator Haar and Mr. Rutherford, in which they asked that Commissioner Lewis may ask the next session for an appropriation larger than the originally intended.

GERMANY AND THE FAIR.

Budget Appropriates the First Installation for Exhibit at the St. Louis Exposition.

Berlin, Jan. 7.—The budget appropriates the first installation for the German exhibit at the St. Louis exposition, and places the total requirement for this purpose at from \$25,000 to \$75,000. The first installment has been placed at the disposal of the German government.

Technical and engineering exhibits will be sent to St. Louis, but general manufacturing and machinery will find a place only as the manufacturers themselves desire to represent them. It is also requested that Fair Commissioners Lewis may ask the next session for an appropriation larger than the originally intended.

GEN. A. L. PEARSON DEAD

Was Past National Commander of the Union Veteran Legion—A Medal of Honor Man.

Pittsburgh, Pa., Jan. 7.—Gen. A. L. Pearson, past national commander of the Union Veteran Legion, and one of the founders of that organization, died yesterday of pneumonia.

The letters embrace three subjects, the questions which have been decided by the courts, the questions which are pending in the courts and suggestions respecting future legislation. Under the heading "The Queen," Gen. Pearson says:

"In view of the wide experience of this committee in dealing legislatively with legal and economic questions, I venture upon the line of suggestion with much hesitation and feeling that the American Committee desires in this respect is something concrete being set down that may be considered, in connection with other views that may be expressed, or what views may be expressed by the expert panel allowed for consideration during the life of this present congress."

A YEARNING FOR MISSOURI.

Cole Younger Applies for a Full Pardon that He May Return to His Old Home.

St. Paul, Minn., Jan. 7.—Colo Younger applied to the state board of pardons, Tuesday, for a full pardon. He asks for a parole from the state prison for life, so that he may return to the state or to exercise other rights of citizenship. In fact, he has destroyed, and that measure should be taken to correct the tendency toward monopolization of the industrial business of the country. I assume nothing to be avoided, even if competition is legal, but regulating the business interests of the country beyond such as will accomplish this end.

"In my judgment, it is impossible in our country to make it impossible in this country, where money is abundant and cheap in the hands or within the reach of keen and capable men if competition were assured of a fair and open field and protected against unscrupulous and discriminating practices.

"Two or more persons or corporations can not by any combination or arrangement between themselves either contract or exert the right of monopoly, or engage in a similar business.

"The utmost they can do is to discourage the disposition to do so by restricting the opportunities, or by securing to themselves some exclusive facilities or the enjoyment of some common facilities upon exclusive terms.

"If the law will guarantee to the smaller producer protection against arbitrary methods in competition and keep the highest standard of quality and service to him for the same, charged to his powerful competitor, he will manage to live and thrive to an astonishing degree."

"The public will profit from its advantages as well as combination. Small individual enterprises not uncommonly spring up and thrive in the shadow of the larger ones, though enjoying none of the important advantages of control of sources of raw material, fuel and transportation facilities, yet realizing fair profits per ton of output, because of close economies possible through direct, personal, interested management."

"More stringent legislation directed against those who give and receive advantages enabling discrimination in prices as against competitors. This, to take the form of punishing the manufacturer who gives and receives advantages of control of sources of raw material, fuel and transportation facilities, yet realizing fair profits per ton of output, because of close economies possible through direct, personal, interested management."

"The public will profit from its advantages as well as combination.

Small individual enterprises not uncommonly spring up and thrive in the shadow of the larger ones, though enjoying none of the important advantages of control of sources of raw material, fuel and transportation facilities, yet realizing fair profits per ton of output, because of close economies possible through direct, personal, interested management."

A REMARKABLE SHOT.
One That Was Fired in the Dark and
Injured Three Men a Mile
AWAY.

"One of the best and most remarkable shots made during the late war with Spain," said a gentleman who made an effort to get into the thick of the fight, relates the New Orleans Times-Democrat, "was, in my judgment, made by a man who was a soldier who fired the shot was a Louisiana boy doing duty as a provost guard at the time. It was late at night when the soldiers were resting. The quiet sleep was broken by a sharp, jagged shot from the outskirts of the camp. No particular attention was paid to the matter at first, as only one shot was fired. But with a couple of officers stationed in order to find out just why it was that he had fired at that time of night. He explained that he had seen a man slipping through the bushes some distance away, and had called out to him to halt. He failed to obey the command, and the soldier dashed away at him, more to frighten him into a stop than anything else. Of course, the fellow never halted. He was probably too badly frightened to stop at that time."

"While I was talking to the guard we heard a fearful noise at least half a mile from the guard's station, and we made a break for the place to see what the matter was. We heard several people screaming as if they were being shot at. So we went at full speed, and in a short while we came upon a little cabin which stood on the roadside. The noise was in this cabin, and I never heard such groans and shrieks in my life. We found three men in the house. They were in great agony, and we asked them what was the matter. 'We have been shot,' they said, and sure enough they had been shot. One was shot in the right shoulder, another in the left, and the third in the hip. They had all been wounded by the same bullet. The man who was wounded in the arm was lying on his right side. The ball passed through his shoulder. Next he lay on his companion's lap, sprawling out on his back, and the bullet split the hide of this part of his anatomy as smoothly as a knife. Then it passed through the fleshly part of the third man, and he died. We did not find the ball. It had passed through the side of the house, wounded the three men in the way indicated, bored through the wall on the opposite side and kept on going, and when it reached the other side the ball had passed through before it reached the cabin. Now, that cabin was fully half a mile from the point where the guard was stationed, and yet a shot fired had wrought all the havoc it did. The ball had plowed its way through woods and into and out of the cabin, and I suppose it is going yet. It shows what kind of guns we fight with in these days."

JOHNNIE PROTESTS.

Has Troubles of His Own on Account of Troumers That Were Made-Over.

Ma has just fixed over another pair of brother's Jim's trousers for me, an' she says if I rip 'em up again' foot ball again' she'll speak to dad. But what you mean? You wears 'em? Some day you're shinin' an' then you'll set 'em an' puts on the finishin' polish. When they come to me they're sights! An' I ain't so very pernickety, said Johnny, according to the Plain Dealer.

Ma hasn't no expert to fit 'em over. She just scissored off the legs, and takes a reef in the back—an' I do the rest. If I wasn't read an' handy with my fids, I'd be in hot water. You know, when the first boy that looks cross-eyed at me, overers and sniggers, gets to lookin' pretty serious before the lump on his jaw goes down. They brought a fellow over from the tannery wunst to have fun with me. When he sees Jim's pants that was father's an' are now mine, he gives a hoot of great joy.

"Go in to school or comin' home?" he says, with one eye shut and his tongue stickin' out. It was a old joke, and I used to tell it, but he wasn't any better at fightin' than he was at humorously. I could kick him all right enough.

"Father's pants are big for Willie," he said, and at the top of his voice, and then dashed off like a streak. I like I was burnin' at the stake.

It was too much! I let out a haw and jumped for him. He was a hawkeye scrapper, but he wasn't as mad as me. We pranced and rolled all over the grassy hill, and I was still encroaching more over wains in ribbons, and I had to run all the way home—with the people wonderin' whether it was a fire or a mad dog.

When we seen those trousers she threw her hands up and said,

"What have you been doing, John?" the crier.

"Defendin' the fam'ly honor," I says gloomy-like they do in story papers.

An' ma just sighed and said no more.

He Was Easy.

"It's easy enough to make friends," said David, smugly, "but it's pretty hard to keep them."

"Oh, I don't know," replied Lenders. "I've got a number of friends who seem perfectly willing to let me keep them."—Philadelphia Press.

Pensions in Denmark.

Every native and naturalized citizen in Denmark over 60 years old and unable to support himself may file a claim for a pension varying from \$2.50 to \$4.50 per month.—N. Y. Times.

Vigorous Old Age

Paine's Celery Compound makes the old feel young and comfortable again. It has added years of health and enjoyment to the lives of thousands of people. Use this great medicine regularly, and its invigorating powers will fill your declining years with health, strength, and happiness. Read what George F. Morse says about it:

Wells & Richardson Co.

Gentlemen:—Just a word in favor of Paine's Celery Compound, hoping it may catch the eye of some afflicted person. I am 75 years old and enjoy the comforts of life.

Use this great medicine regularly, and its invigorating powers will fill your declining years with health, strength, and happiness. Read what George F. Morse says about it:
